

## **Dawn Witt Bio**

---

Dawn has 35 years of experience in the energy sector, having worked for MRC Global for the entirety of those 35 years. In her current position as Director of Corporate Accounts and Gas Utilities Industry Relations, she is specifically focused on the natural gas / gas utility sector. Her expertise encompasses areas such as contract negotiation and management, facilitating the relationship between MRC Global and their customers / end users and manufacturers, complex project management, optimizing operational efficiencies and implementing innovative strategies. Additionally, one of her primary responsibilities is to represent MRC Global at industry conferences and trade shows and to engage with associations and organizations that support the natural gas industry. As a passionate advocate for sustainable energy solutions and a firm believer in the critical role of natural gas in the global energy mix, she sits on several committees and boards within the industry to effectively collaborate with diverse stakeholders to drive influential change.

She is a passionate advocate for women at MRC Global and in the industry. She provides mentorship, fosters a safe environment where women feel valued and encouraged to voice their ideas and opinions and extends the advocacy and support of the development of women throughout the MRC Global leadership team and organization.
